Facials

Stress, diet and daily environmental aggressors trigger imbalances in the body such as acne, sensitivity, dryness, premature aging, and pain. The Aveda spa approach combines pure botanical products that produce results. Your holistic spa experience is enhanced with touch and breath techniques, selected specifically for you, that relax your body and mind and naturally activate the body's repair and recovery mechanisms.

Recovery for your skin and body starts with a consultation. Just as your hair stylist consults with you to design your hair cut and color, your spa therapist will design a treatment for you based on the Aveda Elemental Nature customization philosophy. We will help you achieve balance by recommending the appropriate techniques, self care and products that are right for you.

Elemental Nature Facial

We address your skin concerns ranging from aging to dryness, sensitivity and oiliness. Your treatment will include customized product formulas, massage techniques and rituals to restore your skin to balance.
